RED LIGHT CAMERAS

Snap multiple photos when a car runs a red light.

! WARNING !

The following camera types:

-are accessible to law enforcement without a warrant

-take footage of everything and everyone (not just traffic infractions)

AUTOMATED LICENSE PLATE READERS (ALPRS)

Photograph a vehicle's rear (license plate, bumper stickers, make & model, etc.)

PAN-TILT-ZOOM (PTZ) CAMERAS

Record human movement. Can be operated both automatically and manually.

TRAFFIC SENSOR CAMERAS

Used by city planners to monitor the flow of traffic.

KEEP YOUR *EYE* ON THE *SPY*

Spotting Surveillance at Traffic Intersections

Use this non-exhaustive list to feel more confident in knowing where and how your community is being watched!

IF YOU SEE SOMETHING, SAY SOMETHING!

Log surveillance tech on the DeFlock app (or at deflock.org).
